

## Job Description: Senior SnapLogic Developer

**Position:** Senior SnapLogic Developer

**Location:** Onsite

**Experience:** Minimum 10 years of integration experience, with at least 4 years of hands-on experience in SnapLogic.

### Job Summary

We are seeking a highly skilled and experienced **Senior SnapLogic Developer** to join our team for an onsite role with a prestigious Workday client. The ideal candidate will have a strong integration background with extensive hands-on expertise in **SnapLogic**, complemented by experience in other iPaaS tools such as **Mulesoft** and **Workato**. The role involves working on advanced SnapLogic concepts and delivering robust integration solutions in a high-paced environment.

### Key Responsibilities

- 1. Integration Development:**
  - Design, develop, and deploy complex integrations using **SnapLogic pipelines, Snap Packs**, and connectors.
  - Work on advanced SnapLogic features such as **Ultra Tasks, Snaplex configurations, Error Pipelines**, and **Custom Snaps**.
- 2. Advanced Concepts:**
  - Implement **SnapLogic Data Mapping, Schema evolution**, and **Dynamic pipelines** to support scalable solutions.
  - Optimize SnapLogic performance through **Pipeline Partitioning, Parallel Processing**, and **Caching**.
- 3. Workflow Automation:**
  - Integrate with enterprise systems like **Workday, Salesforce, SAP**, and **other ERPs** using SnapLogic.
  - Leverage SnapLogic to automate **ETL (Extract, Transform, Load)** processes and handle **real-time data integrations**.
- 4. Error Handling and Monitoring:**
  - Design and implement **error handling frameworks** and **retry mechanisms** for SnapLogic pipelines.

- Monitor pipeline performance using **SnapLogic Dashboard** and implement proactive solutions.
- 5. **Collaboration and Leadership:**
  - Collaborate with cross-functional teams to gather requirements and provide technical expertise.
  - Mentor junior developers and contribute to the **best practices repository** for SnapLogic development.
- 6. **Documentation and Compliance:**
  - Prepare detailed documentation for integration workflows, data mappings, and error management strategies.
  - Ensure all solutions comply with security, compliance, and regulatory standards.

## Required Skills and Qualifications

- **Experience:**
  - Minimum of **10 years** in integration development with at least **4 years of SnapLogic hands-on experience**.
- **Technical Expertise:**
  - In-depth knowledge of SnapLogic components, including **Snaplex, Designer, Manager, and Dashboard**.
  - Experience with advanced SnapLogic features like **Ultra Tasks, Pipeline versioning, and Snap Pack extensions**.
  - Strong proficiency in integrating **Workday, JIRA, New Relic, Splunk, Front, Workday, Google sheets, Google drive and docpaeser** and other enterprise applications.
  - Solid understanding of **JSON, XML, REST, SOAP APIs, and Webhooks**.
  - Proficiency in scripting languages such as **JavaScript** or **Python** for SnapLogic extensions.
- **iPaaS Tools:** Familiarity with other iPaaS platforms such as Workato and MuleSoft is a plus but not mandatory.
- **Problem-Solving:** Exceptional analytical skills to troubleshoot and resolve integration issues effectively.
- **Communication:** Excellent verbal and written communication skills to liaise with stakeholders and present technical solutions clearly.

## Preferred Qualifications

- Experience in handling **multi-cloud environments** and integrating data across platforms like **AWS, Azure, or Google Cloud**.
- Knowledge of **SnapLogic AI-driven insights** and its application in predictive analytics.
- Experience in **DevOps practices**, including CI/CD for SnapLogic integrations.

## **Why Join Us?**

- Opportunity to work with a prestigious client in the Workday ecosystem.
- Exposure to cutting-edge integration technologies and advanced SnapLogic features.
- Collaborative and innovative work environment.
- Competitive remuneration package.

If you are passionate about integration and thrive in a dynamic, fast-paced environment, we encourage you to apply and be part of our journey to create impactful solutions for our clients.
