Job Summary

We are seeking a MuleSoft Architect to lead the design and implementation of API-led integration solutions using the MuleSoft Anypoint Platform. This role will define architecture standards, mentor developers, and ensure scalable and secure integrations across the enterprise

Key Responsibilities:

- Design end-to-end integration architecture and reusable API frameworks.
- Define technical standards, patterns, and best practices for MuleSoft solutions.
- Collaborate with business and technical teams to align architecture with goals.
- Review code, guide development teams, and support performance tuning.
- Integrate with cloud and on-premise systems (Salesforce, SAP, databases, etc.).

Requirements:

- 5+ years of integration experience, 3+ with MuleSoft.
- Strong in Mule 4, DataWeave, API design (RAML/OpenAPI), and security standards.
- Experience with cloud platforms (AWS/Azure), DevOps, and CI/CD pipelines.
- MuleSoft Certified Integration/Platform Architect preferred.
