Key Responsibilities:

- Design, develop, and implement API proxies and policies using Apigee Edge.
- Create API specifications, documentation, and API proxies using Apigee API Management.
- Work with RESTful and SOAP APIs and ensure they are secure, scalable, and performant.
- Integrate Apigee with backend services and databases.
- Implement security features such as OAuth, JWT, and API key validation.
- Perform API testing and debugging.
- Monitor and troubleshoot API performance issues.
- Collaborate with cross-functional teams to gather requirements and design API solutions.
- Maintain and update existing APIs and ensure their stability and performance.
- Provide technical support and guidance to other team members.

Required Skills and Qualifications:

- Bachelor's degree in Computer Science, Information Technology, or a related field.
- Proven experience as an Apigee Developer or in a similar role.
- Strong knowledge of Apigee Edge, including API proxy development, API products, and API analytics.
- Proficiency in designing and developing RESTful and SOAP APIs.
- Experience with API security mechanisms such as OAuth, JWT, and API keys.
- Familiarity with backend services and databases.
- Strong problem-solving and troubleshooting skills.
- Excellent communication and teamwork skills.
- Ability to work in a fast-paced, dynamic environment.

Preferred Skills:

- Experience with cloud platforms such as Google Cloud Platform (GCP), AWS, or Azure.
- Familiarity with CI/CD tools and processes.
- Knowledge of programming languages such as Java, Python, or Node.js.
- Experience with containerization technologies like Docker and Kubernetes.
