Job Summary:

Experience: 3 to 5 Years

Location: Bangalore

Company: iSteer Technologies

About the Role :

We are looking for an experienced **SnapLogic Developer** to design, build, and manage integration solutions across enterprise applications and data systems. The ideal candidate will have strong experience in developing and maintaining SnapLogic pipelines, integrating cloud and on-premise systems, and optimizing data workflows.

Key Responsibilities:

- Design, develop, and maintain **SnapLogic pipelines** and integrations between multiple systems (cloud, on-premise, SaaS).
- Collaborate with business and technical teams to gather integration requirements and deliver scalable solutions.
- Optimize existing SnapLogic processes for **performance, reliability, and reusability**.
- Manage and monitor integrations, troubleshoot issues, and ensure seamless data flow.
- Develop reusable components and frameworks to accelerate future integrations.
- Work closely with data engineers, architects, and DevOps teams to ensure alignment with enterprise architecture standards.
- Document integration designs, mappings, and operational procedures.

Required Skills & Qualifications

- Bachelor's degree in Computer Science, Information Technology, or a related field.
- **3+ years of hands-on experience** with **SnapLogic** platform (designing and deploying pipelines, managing tasks, using Snap Packs).
- Strong understanding of **REST/SOAP APIs, JSON, XML, SQL, and data integration patterns**.
- Experience with **cloud platforms** (AWS, Azure, GCP) and connecting cloud services via SnapLogic.
- Familiarity with **ETL, data migration, and data transformation** concepts.
- Strong debugging and problem-solving skills.
- Excellent communication and collaboration skills.

Nice to Have

- Experience with other integration tools (MuleSoft, Dell Boomi, Informatica, etc.).
- Knowledge of **CI/CD pipelines**, version control (Git), and DevOps practices.
- Exposure to **API management** and microservices architecture.
