Integration Program Manager

Role Summary

We are looking for a seasoned Technical Program Manager to govern the end-to-end migration lifecycle. You will serve as the strategic bridge between the technical engineering teams, implementation partners, and client executives onsite in Dubai.

Key Responsibilities

- Drive end-to-end project governance, milestone planning, and resource tracking for a complex, multi-phase TIBCO-to-Apigee migration.
- Facilitate daily standups, weekly progress reporting, and monthly executive alignment reviews focusing on capacity and risk mitigation.

- Manage project scope, track dependencies across major external systems (including Tier-1 ERPs, Core Metering Data, and Geospatial networks), and clear delivery roadblocks.
- Oversee global delivery pipeline coordination, ensuring seamless transition for engineering teams relocating from India to Dubai.
- Lead the coordination for code-level cutovers, user acceptance testing (UAT) cycles, and risk-managed production rollouts.

Qualifications & Requirements

- **Experience:** 8+ years of technical project management experience, specifically steering large-scale middleware, ESB, or API gateway modernization programs.
- **Certifications:** PMP or Agile/Scrum Master certifications are highly preferred.
- **Skills:** Exceptional stakeholder management, clear risk-mapping capabilities, and deep familiarity with integration lifecycle management.
